

TECHNICAL DATA SHEET

Item Code: EO-1029

Date: 01.07.2020

Item Name: Celery Seed Essential Oil

Version: 1

CAS number:	8015-90-5
Raw material:	Seeds
Origin of raw material:	Egypt
Origin of product:	Egypt
Production:	The celery seed oil is produced by steam distillation
Botanical name:	<i>Apium graveolens</i>
Product description:	<i>Apium graveolens</i> is a familiar biennial plant native to southern Europe and cultivated extensively as a domestic vegetable. Celery Seed essential oil possesses a spicy, warm, long-lasting aroma, and is used as a fragrance component in soaps, cosmetics, and perfumes.

Physico-Chemical Properties:

Appearance:	Colorless to brownish yellow, odor spicy, warm, long-lasting aroma.
Physical Status	liquid
Flash Point (Closed cup) °C	>53 °C
Density	0.871-0.878 (20° C)
Refractive Index	1.470 – 1.481 (20° C)
Solubility in Alcohol	Soluble
Solubility in Water	Insoluble
Main Components	Limonene, beta-Selinene, Sedanenolide, 3-Butyl phthalide

Handling and Storage:

Shelf Life:	12 months or longer under proper storage conditions.
Legislation	Natural
Stability	Avoid strong acids, strong bases, and all oxidizing agents.
Uses	Aromatherapy, natural perfumery
Handling Precaution	Handle in adequate ventilation, avoid skin and eye contact, use goggles or face shield and wear protective clothing.
Packing & Storage	Maintain a temperature between 20-30° C. Altered by light and air. Keep in tightly closed container in a cool and dry place, protected from light. When stored for more than 12 months, quality should be checked before use.

NOTE: We believe the above information to be correct but we do not present it as all-inclusive and such should be used as a guide. It is the sole responsibility of the receiver of our product to must exercise their independent judgement in determining its suitability for a particular purpose. Since many factors affect the processing & application of our product, user should carry out their own tests before any particular application.
